

Education

Bachelor of Science - *Software Engineering*

Western Governors University

March 2025 - January 2026

Associate Degree - *Computer Networking & Telecommunications*

Collin County Community College

August 2021 - May, 2023

Experience

Data Center Technician @ *Cloudkey*

Plano, TX

May 2024 - Present

Network Operations Center Technician @ *O'Neil Digital Solutions*

Plano, TX

June 2022 - Oct 2023

Technical Skills

Programming Languages & Frameworks:

Primary: TypeScript, JavaScript, Java

Backend: Spring Framework, Spring Boot, Node.js

Scripting: Shell Scripting (Bash), Python (if applicable)

Frontend Development:

Frameworks & Libraries: Next.js, React, Angular

Styling & Tools: TailwindCSS, CSS3, HTML5

Build Tools: Vite, Webpack, Maven

Database & Backend Services:

Relational Databases: MySQL, MariaDB, PostgreSQL

Backend-as-a-Service: Supabase (PostgreSQL, Authentication, Real-time subscriptions)

Query Languages: SQL

DevOps & Infrastructure:

Monitoring & Observability: Grafana, Zabbix
Virtualization: Proxmox, Hyper-V
Version Control: Git, GitHub
CI/CD: GitHub Actions (if applicable)

Development Tools & Platforms:

API Development & Testing: Postman, REST APIs
Project Management: Jira, Confluence
Network Management: Ubersmith

Networking & Systems:

Protocols & Architecture: TCP/IP, HTTP/HTTPS, WebSockets
Network Types: WAN, LAN configuration and troubleshooting
Operating Systems: Linux (Ubuntu, CentOS, etc.), Microsoft Windows Server, Windows 10/11

Software Development Practices:

Agile/Scrum methodologies
RESTful API design and implementation
Microservices architecture
Version control and collaborative development workflows

Projects

[Wellness Tracker](#) - Java | Spring Framework | Spring Security | Next.JS | React | Typescript | JavaScript | MariaDB

A full stack wellness tracking application that helps you build and maintain good health habits.

[Blog \(in progress\)](#) - Java | Spring Framework | Spring Security | Next.JS | React | TypeScript | JavaScript | MariaDB

A full-stack blog application built with security and accessibility in mind.
